## STAGE

1. Stage Size should be a comfortable size..so that musicians can move around etc. Rough size (30 feet by 30 feet deep).
2. 8 raisers of height 1 to 2 feet required for the raisers as shown on the previous page.
3. *Full Stage has to be carpeted. (Optional as to prevent mike leaks)*
4. All the Raisers have to carpeted.
5. 10 white bed sheets

## SOUND

1. Full professional quality P.A. System.
2. PA sould be accroding to the venue Size
3. Digital Mixer - Digidesign SC 48 or Yahama m7 CL
4. All the Stage Amps as shown on the next page
5. The sound company should get the jack to jack leeds, DI Boxes etc.
6. All the monitors as shown on next page
7. Extension boards etc.....
8. Sound console to be made in the centere of the venue... as it is a live band and we do not use any recorded stuff.

## LIGHTS

1. 18 or 24 power cans
2. Some effect lights etc..
3. Smoke machine (the trigger of the smoke machine stays with the drummer.)
4. Lights should be according to the venue - also that we are a fusion band...we do not require disco lights etc. We need nice mood/ambience lighting
